Who is this MBA for?

A flexible programme that allows you to study at any time, any place. For experienced managers unable to take a lot of time away from work.

The flexibility of our Flexible Learning MBA lets you balance study with the other commitments in your life. Whether you are on the move, on an inflexible business schedule or simply unable to take a lot of time away from work, the Flexible Learning MBA means you can study in your own time and at any location. It is a proven blend of workshops, teamwork, online and offline self-study.

The Flexible Learning MBA has immediate application back in your workplace. The knowledge and skills you'll learn from our practical, integrated MBA curriculum develops your capability to think and behave strategically. The Flexible Learning MBA lets you contribute value to your employer immediately. Assignments are based on live organisational issues. Many employers agree that this alone is worth the programme fees.

Programme schedule

The International Stream of the Flexible Learning MBA is different as the residential workshops in Henley are combined into three separate weeks over the three years of the programme. These cover:

- Ongoing review of your personal development plans
- Interactive and challenging approaches to learning
- Preparation for your assignments and exams
- Formation and maintenance of learning teams

Workshops are built into the programme schedule and complement the average 12-15 hours per week of study over the three years of the programme.
